DWR UISCE CONFERENCE 2017

'Sustainability in Energy and Water Resources: Research & Practice'

Friday 27th October 2017, Bangor University, Wales

The 1st Annual Dŵr Uisce Conference will be hosted by Bangor University in Wales on 27th October 2017. The theme of this year's conference aims to address the challenges we face in relation to water and energy demands in Ireland and Wales. The event will include leading experts from industry and academia on technical, social and governance perspectives on the importance of efficiently managing our water and energy resources.

It is a unique opportunity for stakeholders in the water and energy sectors to come together and shape our response to the distinct and common challenges faced in the region as part of the Dŵr Uisce smart specialization cluster. The day is scheduled into three distinct sessions: '*Practice & Governance*', '*Sustainability in Action*' and '*Dŵr Uisce Perspectives*', where the topics and speakers include:
